Best Agrolife Ltd. Announces Q2 FY26 Results – Strategic Focus Driving Resilient Business and Long-Term Growth

Best Agrolife Ltd. (NSE: BESTAGRO | BSE: 539660) today announced its financial results for the quarter and half year ended on September 30, 2025 (Q2 FY26). The company reported consolidated revenue of ₹516.8 crore compared to ₹381 crore in Q1 FY26, a 35.6% QoQ increase in consolidated revenue. However, compared to the revenue of ₹746.6 crore in Q2 FY25, the company registered a 30.8% YoY decline. The performance was influenced by erratic monsoons and a strategic shift toward portfolio optimization and sustainable business practices.

Commenting on the results, Mr. Vimal Kumar, Managing Director, Best Agrolife Limited, said:

“In this Kharif season an erratic monsoon has once again shown the dependence of Indian agriculture on the quantity and timing of rains. The errant rains posed several challenges, with unexpected as well as extended heavy rainfall across key agricultural regions, which in turn impacted the overall demand pattern for agrochemicals. Despite these conditions, Best Agrolife has navigated the season through disciplined operations management, dynamic inventory control, and a strong on-ground presence. We continue to focus on leaner inventories and financial discipline.

The business is steadily progressing toward stabilization, with notable improvements in key operational areas including lower sales returns, and optimization of operating expenses (OPEX) as well as a tight control on inventory. Inventory levels have decreased by ₹207 crore, from ₹873 crore in H1 FY25 to ₹666 crore in H1 FY26, marking a 24% year-on-year reduction. Through strategic restructuring across regional operations, the company has achieved an OPEX reduction of 13% compared to Q2 FY25 and 11% compared to H1 FY25. We believe this belt tightening will be the base for our future.

Traditionally, the agrochemical industry experiences the major sales returns in the third quarter. However, driven by our revised sales return policy and pre-season order placement strategy, we anticipate significantly lower sales returns in Q3 FY26.

Our focus on patented products is now contributing over half of our brand portfolio, enhancing brand value, margin profile, and competitive advantage. Despite moderation in the overall revenue, the quality of our revenue mix has improved significantly, reflecting our commitment to sustainable and value-driven long-term growth. Restructuring the sales force across the regional operations has improved the sales team productivity and led to reduction in the operating expenses.”

Financial Highlights – Q2 FY26

- Q2 FY26 revenue stood at ₹516.8 crore, compared to ₹746.6 crore in Q2 FY25, reflecting a 30.8% YoY decline. The reduction was due to combination of erratic rainfall and lower placements.
- The Company's ongoing efforts to stabilize operations and rationalize inventory have delivered strong results, with inventory levels reduced by ₹207 crore, from ₹873 crore in H1 FY25 to ₹666 crore in H1 FY26, representing a 24% reduction YoY.
- H1 FY26 revenue was ₹898.1 crore, compared to ₹1,265.9 crore in H1 FY25.
- Gross Margin for Q2 FY26 was ₹169.6 crores, in line with reduced topline but supported by improved mix in patented products.
- With strategic restructuring across regional operations the company has achieved OPEX reduction of 13% in comparison to Q2 FY25 and 11% in comparison to H1 FY25.
- EBITDA Margin stood at 15.0% in Q2 FY26, compared to 19.7% last year, primarily due to lower sales volume, and was partially offset by cost controls.
- H1 FY26 EBITDA Margin remained stable at 13.7%, demonstrating early benefits of efficiency measures.
- PAT for Q2 FY26 was ₹38.9 crore, compared to ₹94.7 crore in Q2 FY25.
- The share of patented products increased from 38% in Q2 FY25 to 51% in Q2 FY26, reflecting a strategic shift toward innovation, proprietary formulations, and higher-margin offerings.
- The brand segment contributed 68% and the institutional segment 32% of total revenue in FY25-26, with the former maintaining its strong share despite a softer topline and the latter showing a marginal improvement in mix share.
- Total revenue decreased from ₹746.6 crore in FY24-25 to ₹516.8 crore in FY25-26, largely due to unfavourable market conditions and the company's focus on prudent pre-season placements.

With a favourable Rabi season outlook, improving product mix, and continued operational discipline especially significant lower sales returns, Best Agrolife is poised for gradual recovery in the second half of FY26. The company's focus on innovation-driven growth, sustainable practices, and cost efficiency continues to strengthen its foundation for long-term value creation.
